

**PROJECT ADVISOR
WELL COMPLETIONS & FRAC DATABASE**

Application Deadline: February 10, 2012
or until position is filled

Canadian Discovery Ltd. is a Calgary-based integrated geoscience company. As a growing and dynamic business, we are looking for key individuals to join our team.

Project Advisor – Well Completions & Frac Database

We are seeking a technical expert with significant oil and gas industry experience to assist with the ongoing development of the Well Completions & Frac Database, mentor junior to intermediate Completions Analysts, conduct completions-based scientific investigation and/or contribute to the development of related in-house products. You are a professional engineer and/or a senior technologist with significant subsurface experience and have previous experience working in a data-focused environment. This is a flexible position with significant upside potential.

Job Roles and Responsibilities

- Direct the successful integration of technical activities, including liaising with joint-venture partners, third parties and internal departments.
- Work with completions data on a daily basis to flesh-out potential applications and develop scientific conclusions.
- Recruit employees, assign, direct, and evaluate their work and oversee the development and maintenance of staff competence.
- Liaise with clients, including: delineation of project specifications, contract preparation, cost estimates and follow-through.
- Perform administrative functions such as reviewing and writing reports, approving expenditures and enforcing rules.
- Confer with management, the marketing team and key clients to set long term objectives and development goals.

Education and Work Experience

- Professional Engineer or Senior Technologist with 10+ years of experience
- Significant project management and supervisory experience

Application Deadline

February 10, 2012 (or until position is filled)

Canadian Discovery is an employee-owned company offering a unique and stimulating work environment, flexible hours and competitive compensation.
